COURSE DESCRIPTION: a one-day overview of all aspects of heart failure management from outpatient monitoring to left ventricular assist device implantation and cardiac transplantation. Faculty from multiple disciplines will review current guidelines and potential therapies for advanced heart failure. The course will provide case studies illustrating different approaches to pharmacological and device management. Participants will also hear patient and caregiver perspectives on therapies for advanced heart failure.

The Harvard Medical School designates this live activity for a maximum of 6.00 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
